

Inner Boardroom

Think of yourself in a particular context – where you would like to improve your performance or stop a destructive behaviour.

Think about a head office/boardroom/control room.

- Who is in charge?
- Who else is there?
- What are their roles?
- Who is holding back your progress?
- What is their intention?
- Who needs to stay, go or be given a new role?
- Check with all board members if any changes will be ok.
